

# Adobe Creative Cloud for business

## Everything you need to fuel your team's creativity and productivity.

Get the most comprehensive collection of creative apps and services to accelerate your team's workflows and elevate their creativity.

### Key business benefits of Creative Cloud:

#### Create for virtually any medium with 20+ apps.

Design the highest quality work for print, web, video, mobile, and immersive media using the latest versions of the Creative Cloud apps. They're ideal for any user in your organization, from beginner to advanced, to create on desktop, web, or mobile, supporting today's new hybrid work environments. Adobe Photoshop has added AI-powered Neural Filters, like Landscape Mixer. Adobe Premiere Pro has added speech-to-text dialogue transcription.

#### Work with software that's always up to date.

Get access to the latest apps, features, and updates as soon as they're released so you can always keep up with new creative trends and techniques.

#### Discover easy ways to work better together.

Share a link to your Adobe Photoshop, Illustrator, InDesign, and Fresco cloud documents—anyone can view and comment via the web, no need for a paid Creative Cloud membership. Comments made on the web automatically come back into the Photoshop, Illustrator, or Fresco app. Easily view the version history of a cloud document or Creative Cloud file and restore previous versions for up to 180 days. Invite collaborators to contribute to your creative work right from favorite apps like Photoshop, Illustrator, and Fresco. Get 1TB of storage per user, with the option to pool storage for the whole team for greater flexibility. And work more productively with the apps you use every day thanks to integration with Microsoft Teams, Microsoft Power BI, Confluence, Slack, and other key business tools.

#### Maintain brand consistency.

Help ensure a consistent look and feel across all your business assets. Share colors, images, and other elements of your creative system, and control editing across apps and devices using Creative Cloud Libraries. They're available inside your Creative Cloud apps as well as Microsoft Word, PowerPoint, Gmail, and Google Workspace. Use the API to fully integrate Creative Cloud Libraries into your design workflows and get flexible access to your creative elements and designs. Team libraries are supercharged by pooled cloud storage with 1TB per user.

And access Help content online anytime, or during business hours, call a dedicated support line with local language assistance.

#### Adobe Fonts.

Adobe Fonts is the easiest way to bring great type into your creative workflow, across all apps and across your team. Easily search and browse the complete library of fonts in desktop applications or on the web for endless typographic inspiration.

#### Find Adobe Stock images at your fingertips.

Find the perfect high-res, royalty-free stock image right inside your Creative Cloud apps, and share licensed images with your team.

#### Control your company's assets.

Enjoy peace of mind knowing that your creative assets and libraries can be reclaimed when someone leaves the company.

#### Easily manage licenses.

Deploy apps and updates centrally, or let users self-install. Add or reassign licenses anytime with just a few clicks in a web-based portal.

#### Get consolidated purchasing and volume discounts.

Save big with volume discounts, extend your license term up to three years to keep your budget predictable, and add more licenses at the discounted price.

\*Adobe Stock is a separate purchase.
