

# Apple Solutions for Shared Devices

## Mobilizing your workflows

With provisioning, configuration, managed services, and professional consulting, Insight delivers a turn-key solution that includes Apple® devices with CribMaster DevLock storage units. This solution aims to operate at scale to meet the connectivity and collaboration needs necessary within today's Shared Device environments.

### Shared Devices Bundle:

Equip your workers with the right technology and configurations. We offer two pre-built solutions in either 10 or 22 device configurations.

Device	Details
Apple 10.9" iPad Air® with Cellular	Primary user device
Otterbox Defender Case	Ruggedized device protection
Apple Mac mini®	iPad® software caching solution
CribMaster DevLock Locker	Access-control locker
Cambrionix ThunderSync3	Managed industrial thunderbolt
Jamf Cloud	Remote management of devices.
White Glove On-site setup and installation	

#### Fully Managed:

10 device configuration - \$62,862.24

22 device configuration - \$86,211.78

#### Self Managed:

10 device configuration - \$48,204.24

22 device configuration - \$77,313.78

\*Pricing includes devices, device enrollment, case, and screen protector assembly. All lockers shipped assembled. Onboarding of Jamf Cloud. Managed Services & Software Maintenance fees apply after the first year. Multiple lockers will qualify for volume pricing. Taxes, freight, and shipping charge are not included.

### On-site setup and installation:

As a core practice of our product and lifecycle services, Insight will setup the environment to help you maximize your technology investments, empower your workforce to work smarter, optimize your business and validate the solution.

Our on-site setup support includes:

- Power on and setup of Apple iPad devices into CribMaster locker
- Validation of Jamf Pro Cloud software provisioning
- Assignment of a Project Coordinator to ensure success

#### Price assumptions and limitations

- Managed Services pricing is good for 1 year
- No integration with third-party systems (LDAP, SSO, etc.)
- Simple Wi-Fi network connection (additional charges and time for certificate-based solutions)
- No Jamf Pro console or admin training
- No admin access to the Jamf Pro console
