

Get the information you need to make an informed decision with Insight's **Azure Fundamentals Envisioning Session**.

Plan your move to the cloud with confidence

Did you know that Azure® has more than 100 different services? With terms like IaaS, PaaS, DevOps, BC/DR, AI, BI and the ever increasing cyberthreat, it can be difficult to know where to start. Insight's Azure Fundamentals Envisioning Session gives your organization the opportunity to meet with one of our Microsoft® consultants and gather the information you need to make the right decisions regarding the cloud.

What will the session cover?

- How the cloud is enabling innovation and digital transformation
- Understanding the cloud
 - Infrastructure as a Service (IaaS) vs Platform as a Service (PaaS) vs Software as a Service (SaaS) — which is right for you?
- Common scenarios for the cloud
 - Common workloads
 - Hybrid cloud strategies
- Best practices for cloud adoption

What will you leave with?

- An understanding of the options available to you in Azure and insights into how to approach your cloud journey.
- Clear and defined next steps and services Insight can provide to help your organization transition to modern cloud solutions.

Time commitment

Your customized session will last approximately 90 minutes, which includes 30 minutes of Q&A with a Microsoft expert.

To register, please visit pages.insight.com/envision-azure.

Finding new paths forward in the cloud

The cloud offers a better way for businesses of all types to address the growing needs of customers in a modern digital economy. In fact, organizations overall run 79% of workloads in public or private clouds, including cloud-enabled virtual environments.¹ The move away from traditional IT infrastructure will come with a new host of IT constraints and concerns.

The right partner can help you maximize the benefits of the cloud and get you up and running quickly.
